

# Saving more for retirement may not be on your to-do list these days.

But the reality is, we all need to be saving more into 401k.  
Here's a **great idea** for how to get from where you are... to where you need to be.

## The 1% difference - It's BIG!

How big? Let's look at **Minnie and Maxine**

These sisters do everything together:

- Both work for the same company,
- Both earn the same, \$30,000/year
- Both started saving 2% at age 35.

**The only difference?**

**The 1% difference!**

**Maxine** elected the **auto-increase feature** which raised her saving rate by 1% each year.  
Once it reached 10%, Maxine turned off the auto-increase, but kept saving.

**The Result?** **\$217,264.00 more for Maxine** **THAT'S BIG!**

Sign up now for the 1% auto-increase and take the step toward a brighter future for yourself.
